Building Capacity to Collectively Prepare Students for College and Careers

Purpose
To provide practitioners who offer programs for pre-college aged students (primarily 7th to 12th grades) a chance to gather, share information and learn more about the role of postsecondary institutions in preparing Michigan’s youth for the future. Others with a vested interest in preparing students for college and careers are also welcome to attend.

Topic Areas of Particular Interest
• Sharing best practice
• Assessment and reporting
• Youth safety policies
• Serving diverse populations
• Youth development/age-appropriate programming
• Life skill development
• College access/getting kids to think about college as their pathway and how to navigate the process
• Innovation and positive change

SUBMIT YOUR PROPOSAL NOW

Submission deadline:
May 11, 2012

This year, two presentation types are offered:
Standard Session (50 minutes): The presentation of a program, process, and/or original research explaining the issues, methodologies and outcomes.

Discussion Session (50 minutes): Presenters offer a main point/problem and solution/outcome in 5-10 minutes and then pose three questions for discussion by the group. This session should be designed to generate involved conversation among the attendees.
